

M. A. Community Counseling Comprehensive Examination Study Materials

MA Community Counseling Comprehensive Exam

STUDY AIDS

There are two recommended study aid resources for purchase:

- “Encyclopedia of Counseling: Master Review and Tutorials for the National Counselor Examination and State Exams” by Howard Rosenthal, Ed.D. This book can be found via Google or directly from the publisher at <http://www.routledge.com/>. The ISBN is 0-415-93367-6. This book walks you step by step through tutorials and gives you the answers to practice exams that you take along the way as you read/study the material; hence, you will know why an answer is what it is and why you either got it right or wrong. Make sure you read the answers regardless of whether you were correct or not.
- You can also go to the Association for Advanced Training in Behavioral Sciences (AATBS) website and seek study materials specific to the National Counselor Examination at <http://www.aatbs.com/main/ceuintro.asp>. There will be a tab at the top of the page for “counselor” and then a menu for NCE exam. These study materials are more costly than the Rosenthal book, but you can get a 25% discount for being a student. These books are typically set up by having teaching volumes and then practice exam volumes. Again, they supply you with the answer key and the rationale for the answer.
