

Latin American Student Association (LASA)

The Latin American Student Association is a new student organization focused on addressing important issues relevant to the Latino student body. We are eager to serve as a resource for support to the Latino students at Argosy University-Chicago. **All students** from **all programs** are invited. Our next meeting is Saturday, October 9th, 2010 at 2pm at the student lounge.

Our mission is to promote personal and professional competency of issues of the Latin-American community, while being respectful of our own and others diversity. We promote the preservation of our language and traditions to encourage the development of our cultural identity and to support the Latino/a individual and community.

The activities that will be sponsored during this academic year include common hours to discuss topics pertaining the Latino community and social activities such as potlucks. We also intend to have events where Latin American guest speakers will present on specific social and political issues that affect Latinos.

We look forward to meeting you!
